OCTOBER 2018

GARDENING FOR OCTOBER

Now is the time to plant out container grown trees, shrubs, climbers and roses, these can be planted anytime between October and March. Prepare the ground thoroughly, digging it over and work in a bit of organic matter, compost or some manure. If the weather is dry remember to water these in well.

Plant new hedges; smaller plants will generally establish more quickly than larger ones, provided the soil is in good condition and they are kept well weeded and watered.

Plant bare-root plants towards the end of the month, provided the ground is ready and leaves have all fallen off.

As we head into the autumn and we start to get some windier weather check all your tree ties!

Prune late flowering climbing roses and repeat-flowering old fashioned roses.

Trim privet hedges.

Grab your rake and start raking back any fallen leaves from lawns or paths, try storing all your raked up leaves in a compost bin to rot down and make your own leaf-mould.

Remember to enjoy your garden folks!

HOW TO GROW; GARLIC

It is best to buy garlic that is specifically for planting, those sold in supermarkets are for eating and aren't successful when planted.

- Prepare the ground by digging it and turning it over with plenty of organic matter.
- Push each individual clove of garlic in so that only the very tip shows above the ground. Plant in a straight line about a hoes width for easy weeding.
- In no time you'll see grassy green shoots growing, which sit through the winter and get the plants off to a flying start in the spring. You'll be pulling 'wet' garlic in June, and by the end of July it will be ready to lift and dry for storing.

Types of Garlic we have in stock: 1x Early Purple Wight Garlic, to be consumed green - £2.99. 1x Carcassonne Wight Garlic, strong and vigorous with pink cloves- £2.99

The Garlic Disciples Favourite... Rumour has it that Violet or 'Rose' garlic, which has pinky-purple outer skin, has a much finer flavour than the usual white kind, although they are all the same colour inside.

We also have some 'Red' and 'Troy' onions in stock from £1.99

PLANT UP A BULB SPECTACULAR!

Plant yourself up a never ending bulb tub! Esther who works in the greenhouse has drawn us up a super diagram. Start with the later flowering bulbs at the bottom of the tub and the early-flowering bulbs at the nearer the top. If you are feeling particularly adventurous you can even plant shrubs on top for the bulbs to pop up between! If you have any queries, please do not hesitate to ask one of our Greenhouse staff.

BEAUTIFUL BULBS!

Plants and bulbs for Autumn/Winter and Spring Pots and Baskets. Let's get planting!

We have many shrubs and Bulbs in stock with prices ranging from £1.99 - £5.99, if you have any queries or questions our lovely Greenhouse Team will be more than happy to assist you!

NEW IN! – AUTUMN FLOWERING CAMELLIAS

You don't have to wait until spring to enjoy the beautiful flowers of Camellias. We have four types of the autumn flowering variety in stock; Hino de Gumo, Kanjiro, Maidens Blush, Yuletide. These range from £22.99 - £23.99.

AUTUMN/WINTER SHRUBS AND BASKET POTS AVAILABLE!

Prices ranging from £2.99 - £4.99

DEALS OF THE MONTH!

3 for 2 on Red Barn Bird food
